Notes:

Services being provided under this appointment are pursuant to Part 9A of the Building Regulations 2018 (Regulations) and include inspection of a swimming pool/spa barrier for compliance with the applicable barrier standard and issuing of a Certificate of pool and spa barrier compliance upon inspection of a compliant barrier.

To help ensure the barrier complies with the applicable barrier standard, a useful check list can be found at <https://www.vba.vic.gov.au/consumers/swimming-pools/pool-safety-barriers>. Please carry out a self-assessment of your pool/spa safety barrier prior to the inspection in accordance with the relevant checklist. Other information and guidance regarding pool and spa registration, maintenance and inspection can also be found at the above link.

Please note that any serious matters of non-compliance need to be forwarded to Council's building enforcement team as required by Regulation 147ZF. Such matters include the following in relation to the barrier:

- A door or gate forming part of the barrier is unable to be completely closed.
- A door or gate can be opened by a person unable to reach the opening mechanism.
- Any part of the barrier is less than 1.0m high on the approach side.
- A non-compliance of the barrier poses a significant and immediate risk to life or safety.
- If within 60 days the barrier is not capable of being made compliant or the owner is unlikely to bring the barrier into compliance.

Privacy Notification

The personal information requested on this form is being collected by Council in accordance with the Building Act 1993. Your information will be stored in Council's Customer Database and used to identify you when communicating with Council and for the delivery of services and information.
