

Cardboard Lacing Hearts

What you need:

- Cardboard
- Pencils
- Wool
- Hole punch
- Scissors

What to do:

- Draw a heart on the cardboard and cut it out.
- Use your hole punch, poke holes around the edges, making sure that you're not too close to the edge.
- Cut a long length of wool. Tie a knot in the end of it.
- Start threading from hole to hole.
- You can thread on the outside of your heart or in the centre.
- Try this using other shapes too!
