

Egg Carton Crocodile

What you need:

- Egg Carton
- Paints and paintbrush
- Colouring supplies
- Scissors
- Sticky Tape

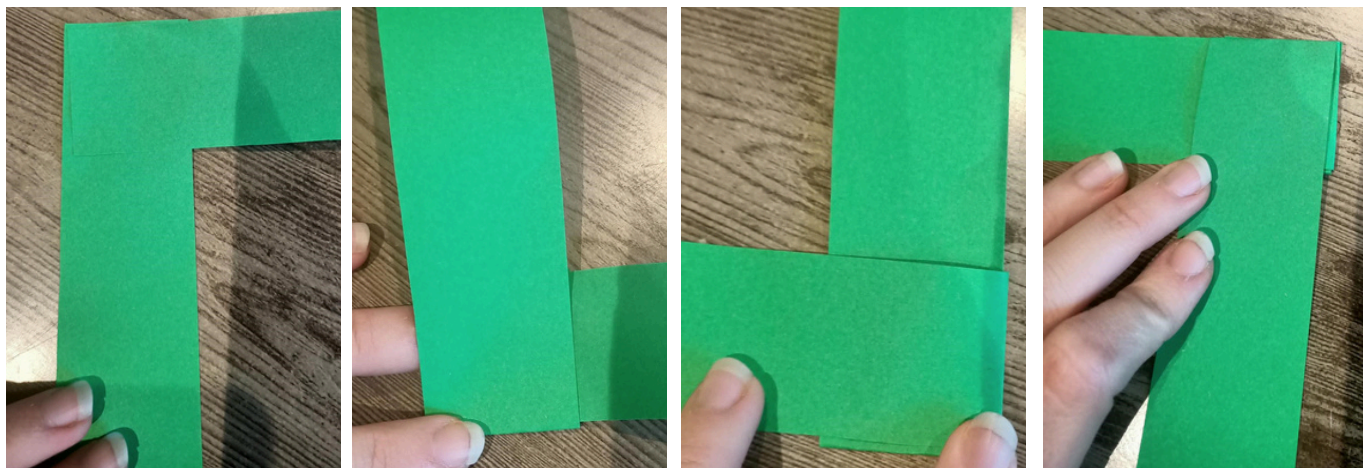

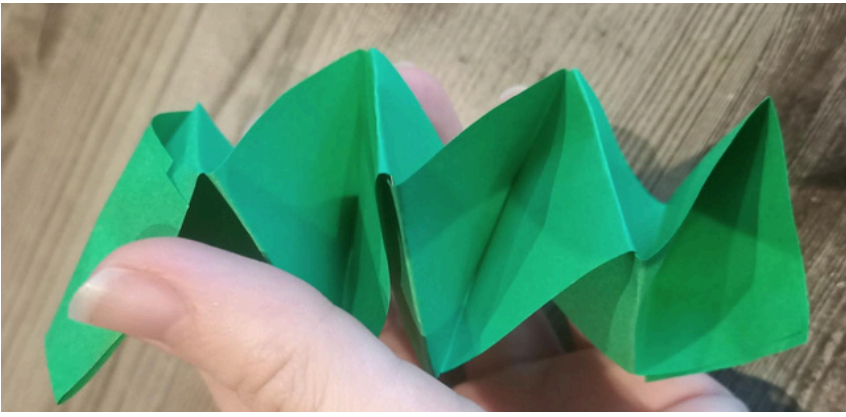

What to do:

1. Protect your work surface by laying down something like old newspaper before you start painting.
2. Cut the lid off the egg carton.
3. Paint the inside of the carton red. This will be inside the crocodile's mouth. Leave to dry for a few hours. Paint the rest green for the body. Leave to dry.

4. To make the legs, cut eight strips of paper. Using two pieces for one leg, start by gluing the two ends together. Hold your strips like I am in the picture. Fold the bottom strip up over the middle, so this strip is now on the top. Repeat with the other strip, moving it from right to left. Repeat this method until you reach the end, and glue the ends together. Stick them to the body of the crocodile.

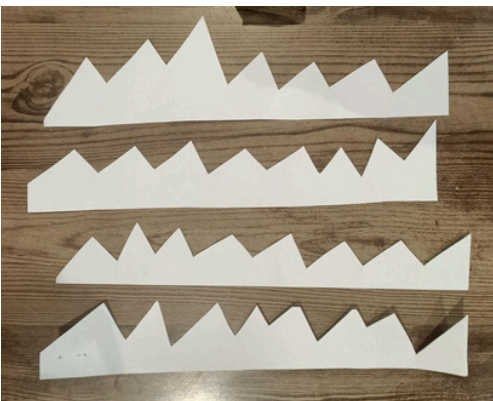

5. Draw eyes on paper and cut out. Stick this to the top of the crocodile.

6. Cut teeth out of paper and stick to the inside of the mouth.

7. Using tape, stick the ends of the carton together. Now your crocodile is finished!
