

Paper Bead Friendship Bracelet

What you need:

- Paper from old magazine/ newspaper/ junk mail
- Glue
- Scissors
- Pencil
- Beads
- Elastic bead thread

What to do:

1. To make the paper beads, cut up thin strips of paper. Roll the paper up around the pencil to make a bead shape and glue the end. Carefully remove the bead from the pencil. Make a few beads. The size and shape of the paper bead will depend on the strip of paper you use. Try cutting a few different shaped strips and see what they look like.
2. Thread the beads onto the elastic, until it's long enough to go around your wrist. Tie a few knots in the end so it's strong.
3. Make a bracelet for you and your friend!
