

Tissue Box Car Park

What you need:

- Tissue boxes (one for each storey of the car park)
- Piece of cardboard for the ramp (mine measures 10cm by 30cm)
- Paint or paper
- Glue and sticky tape

What to do:

1. Before you start painting, protect your work surface. I covered my table in newspaper. Paint the outside of the tissue boxes so they look like a building. Or cover the box in paper. Leave it to dry.
2. Paint the ramp. I made mine look like a road. Paint car parks inside the boxes.
3. Leave the boxes to dry for a few hours.
4. Stick the boxes together using glue and tape.
5. Attach the ramp using glue and tape so it is secure.
6. Park your cars in the carpark and take a photo for [the Kids Club Online Gallery!](#)
