

Olympic Torch

What you need:

- Cardboard roll (save the rolls from empty paper towel, baking paper and foil for craft projects like this one)
- Paper plate
- Paper
- Colour pencils/textas
- Sticky Tape
- Scissors

What to do:

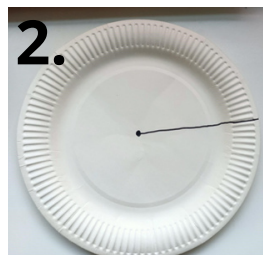

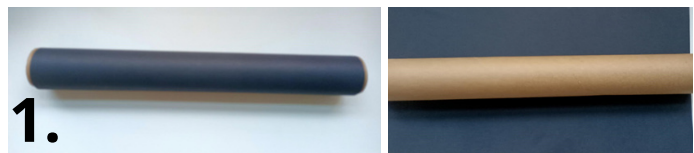

1. Colour in your cardboard roll. You can use paper or colour in with pencils or textas. If you don't have a cardboard roll, you can roll up paper to make one. This will be the base of your torch.

2. Colour in the paper plate. Mark the middle of the plate. Then draw a line from the middle to the edge, like in picture #2. Cut along this line.

3. Fold the plate up so it is in a cone shape like in picture #3. Use sticky tape to hold it together.

4. Cut the bottom of the plate, where it makes a point. The plate will be the head of the torch.

5. Draw a lot of large flame shapes, colour in and cut out. I used about 20 for my torch.

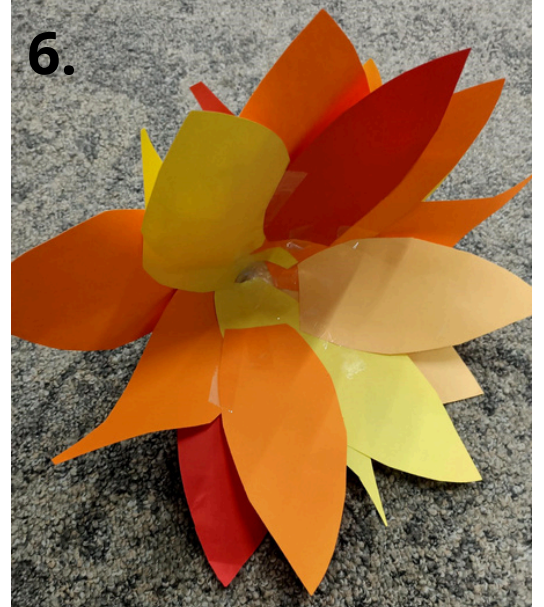

6. Using sticky tape, stick the flames inside the paper plate and arrange them so they fan out, like in picture #6.

7. When you are happy with how the flames look, attach the head of the torch to the base using sticky tape. The tip that you cut off in Step 4 makes the head of the torch flat so you can attach it to the base easier. Make sure the head is securely on the base of the torch.

8. Show us a picture of your torch on the [Kids Club Online Gallery](#).
