

Abstract Square Pattern Artwork

What you need:

- Paper
- Textas (I used graphic art markers)
- Black pen

What to do:

1. Choose colours for the squares. I chose blues and greens for the repeating pattern.
2. Using the first colour, draw small squares all over the page.
3. Change to the second colour and draw a border around each square. See the picture below to guide you.
4. Keep changing colours and drawing around the squares until all the space is full. I added lines with black pen to make the colours stand out.
