

Cute Clay Food

What you need:

- Modelling clay or air dry clay

What to do:

1. Use the clay to create different types of food. Add eyes and a smiley mouth to make them look cute. You could make a pizza, a burger, a cookie, a watermelon slice or a mug of hot chocolate.
2. When finished, leave your creations to dry.
3. If you use white air dry clay, you can paint it once it's dry.
