

DANCING ZOMBIE

Make a zombie that will dance across the plate!

What you need:

- Paper plate
- Paper
- Drawing materials
- Scissors
- Black paint
- Sticky tape
- Craft stick, straw, pencil (to attach to zombie)

What to do:

1. Paint the paper plate black. If you don't have paint you can colour the plate in. Leave to dry overnight.
2. Draw a zombie or monster on paper, colour in and cut out.

3. Attach the zombie to the craft stick, straw or pencil with tape.

4. Cut a slit near the bottom of the plate, but don't cut all the way across. Get an adult to help you with this. It's easier if you fold the plate in half and cut.

Cut a slit here.

5. You can decorate the plate more after the paint is dry. Add a moon, trees, whatever you like. You can move the zombie through the slit holding the pencil so it looks like the zombie is dancing! Or make another figure so the zombie can chase someone! Upload a photo of your work to the [Kids Club Online Gallery!](#)
