

NAME ART

What you need:

- Paper
- Colouring supplies

What to do:

1. Write your name on paper. Make sure the letters fill up as much space as possible, and each letter touches the letter before it. This will create a lot of different sections. Use pencil to begin with so if you make a mistake you can rub it out. Then when you are finished go over the pencil with the texta.
2. Use a different colour to colour in each section. Or you could draw a different pattern in each section.
3. Show us a photo of your finished art on the [Kids Club Online Gallery!](#)
