

# RAINBOW PATTERN

## What you need:

- Paper
- Textas
- Ruler

## What to do:

1. Start by ruling lines on the paper using black textas. I wanted the black lines to be very thick so I drew 2 parallel close together and coloured it in. I made the lines into triangle shapes. Play around and see what shapes you like to draw on the page.
2. Rule more lines in the shapes to fill up the page.
3. Choose a selection of colours and colour the page in to make a pattern. You can make this art work more than once use using different colour combinations, like bright colours on one and pastel colours on another.

Show us what you have made on the [Kids Creations Gallery](#).
