Paper Ornament

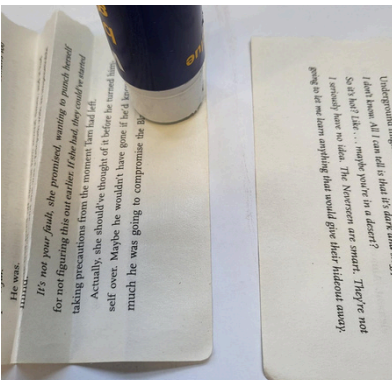

What you need:

- Scrap paper- I used old book pages
- String
- Scissors
- Glue or sticky tape

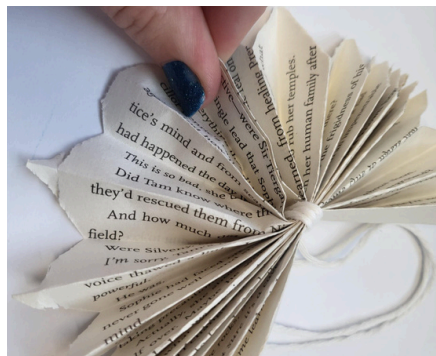

What to do:

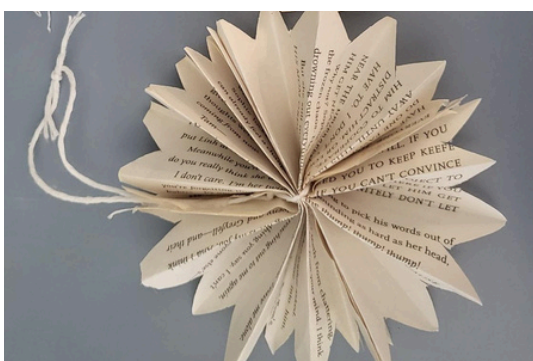

1. Start with one piece of paper and fold it accordian style. When you reach the end of the paper, glue a second piece of paper on that is the same size and keep folding.

2. When you have finished folding the paper you can make a small diagonal cut on the ends to give the finished ornament a pointy edge like a snowflake. Then cut a long piece of string, wrap it around the middle of the folded paper a few times and tie two knots. Glue along the edge of the paper, fold it in half and press together as the glue dries.

3. Glue along the other edge and stick together to complete the circle shape. You will need to move the string so it lies along one of the edges and is glued between the paper. When the glue is dry you can tie the ends of the string together and hang on your Christmas tree!

Show us what you have made on the [Kids Creations Gallery](#).
