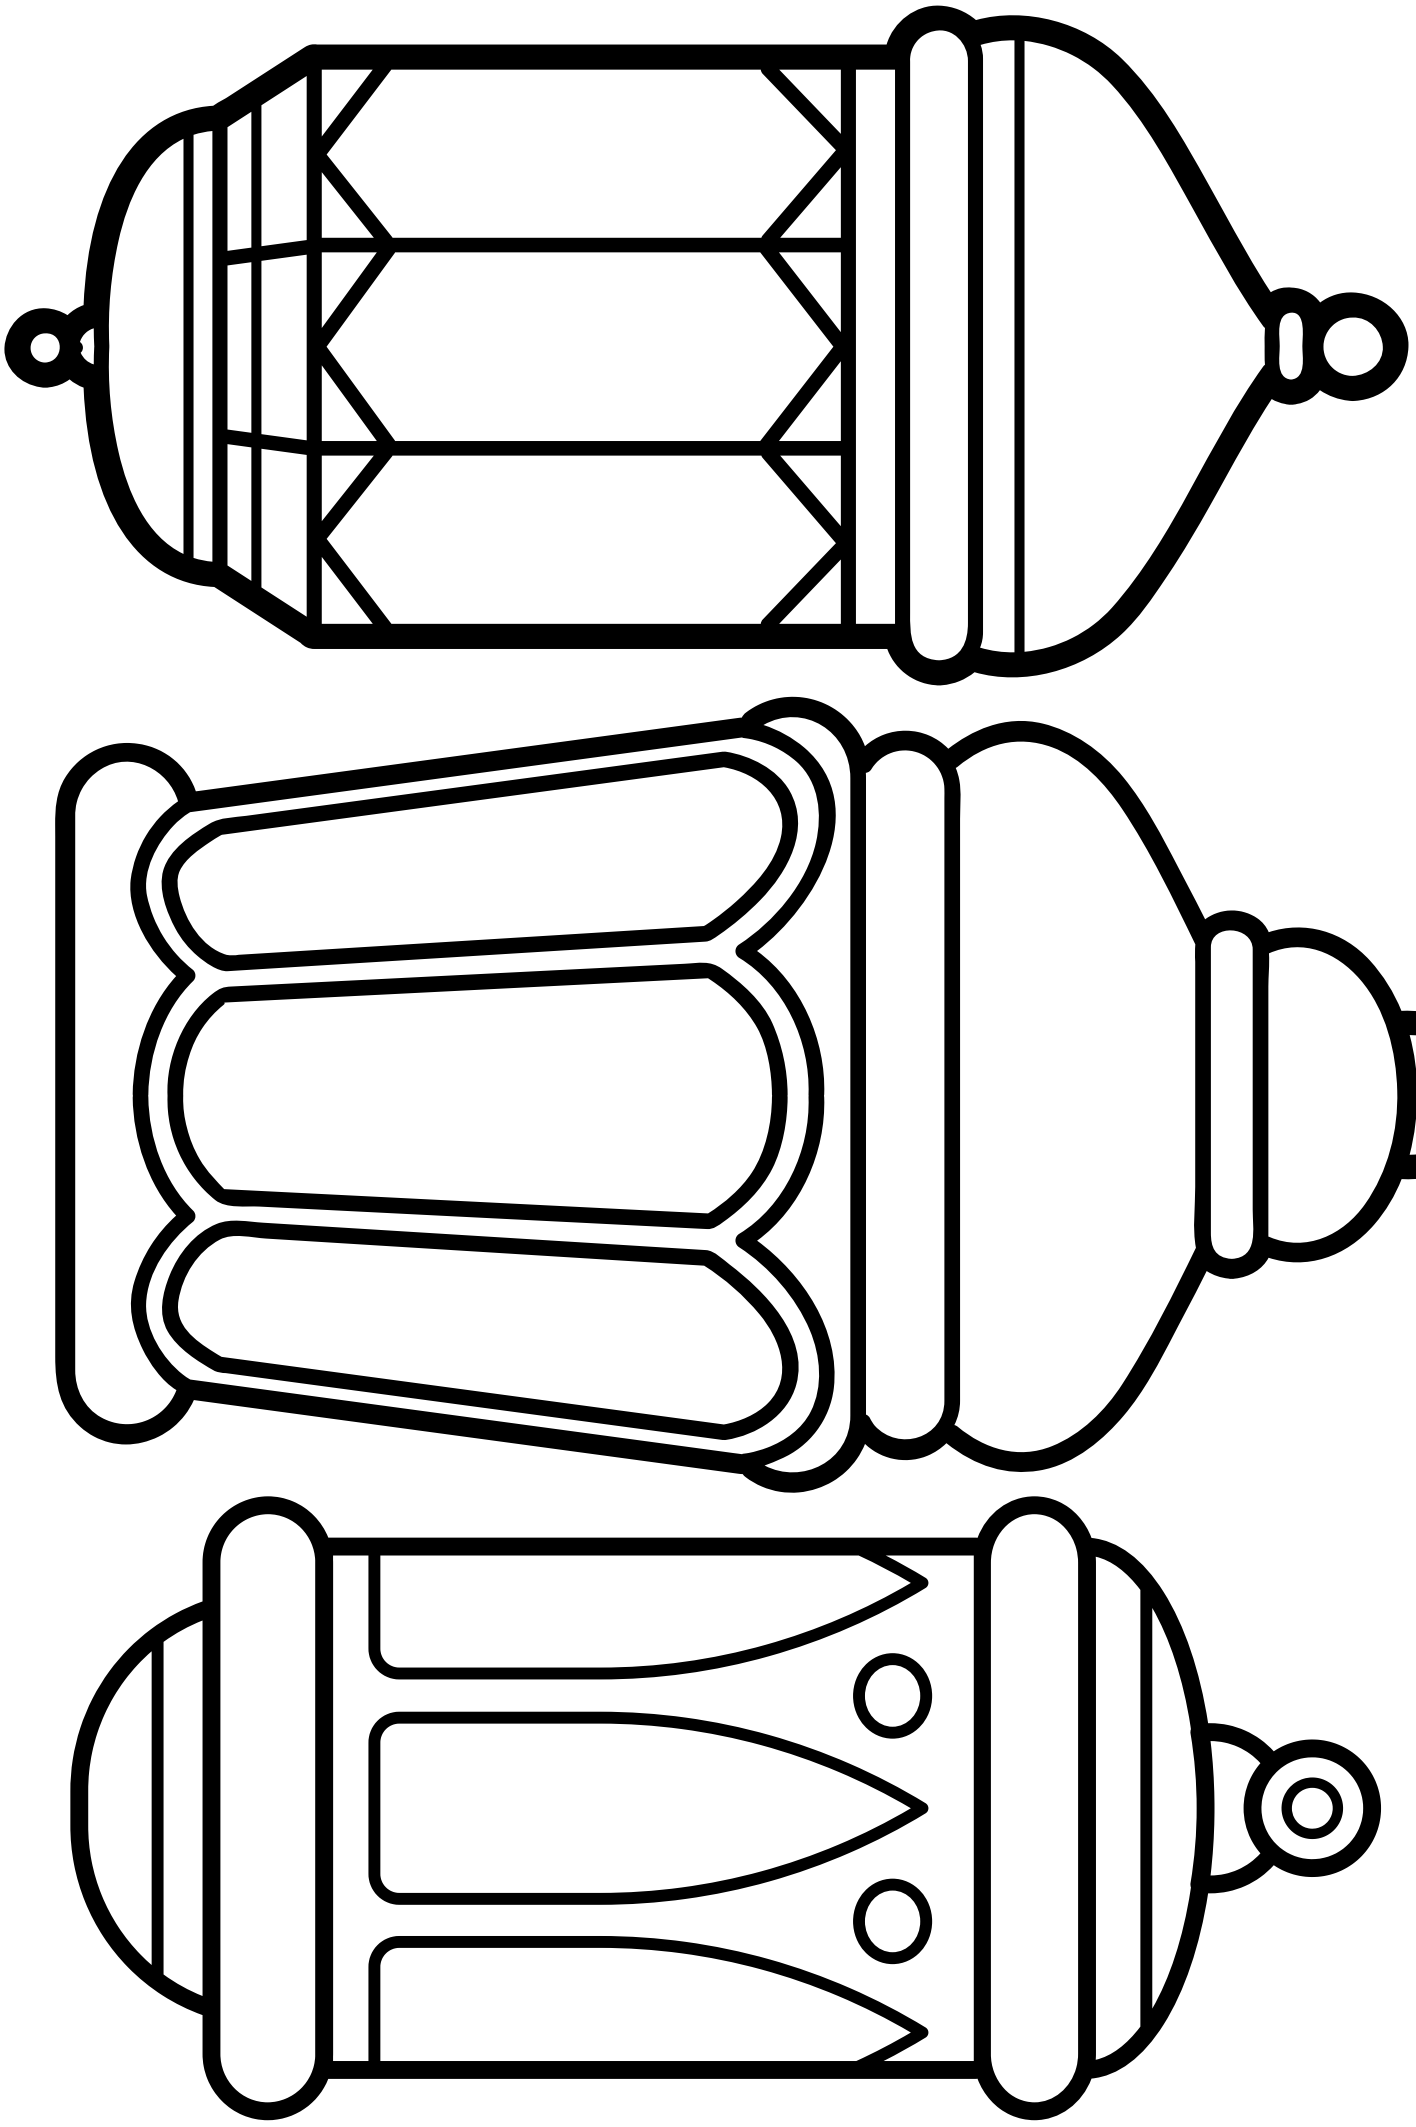
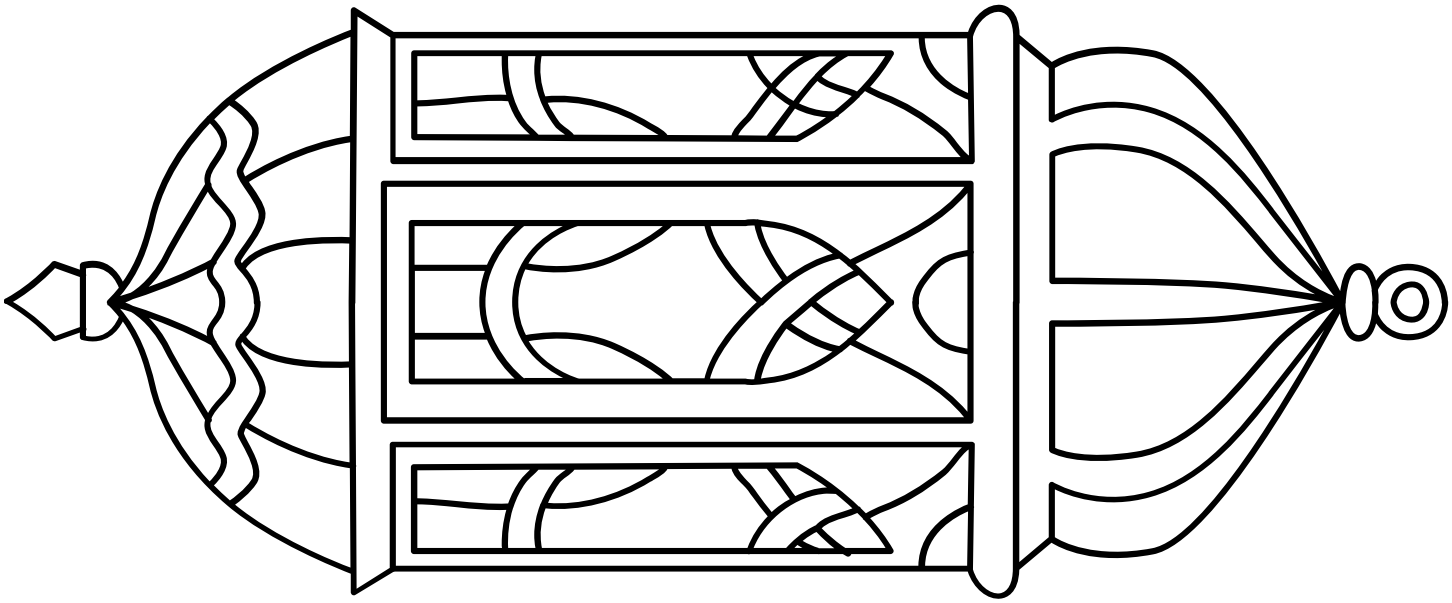
Hanging Lantern Decoration

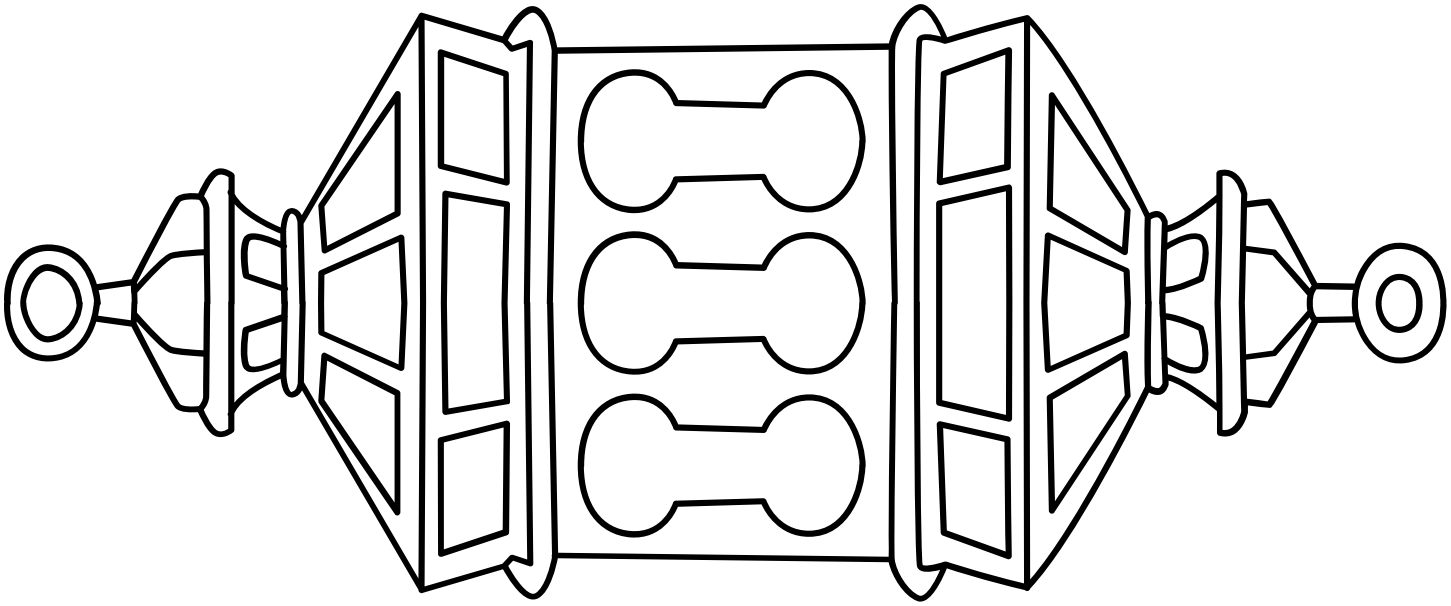
What you need:

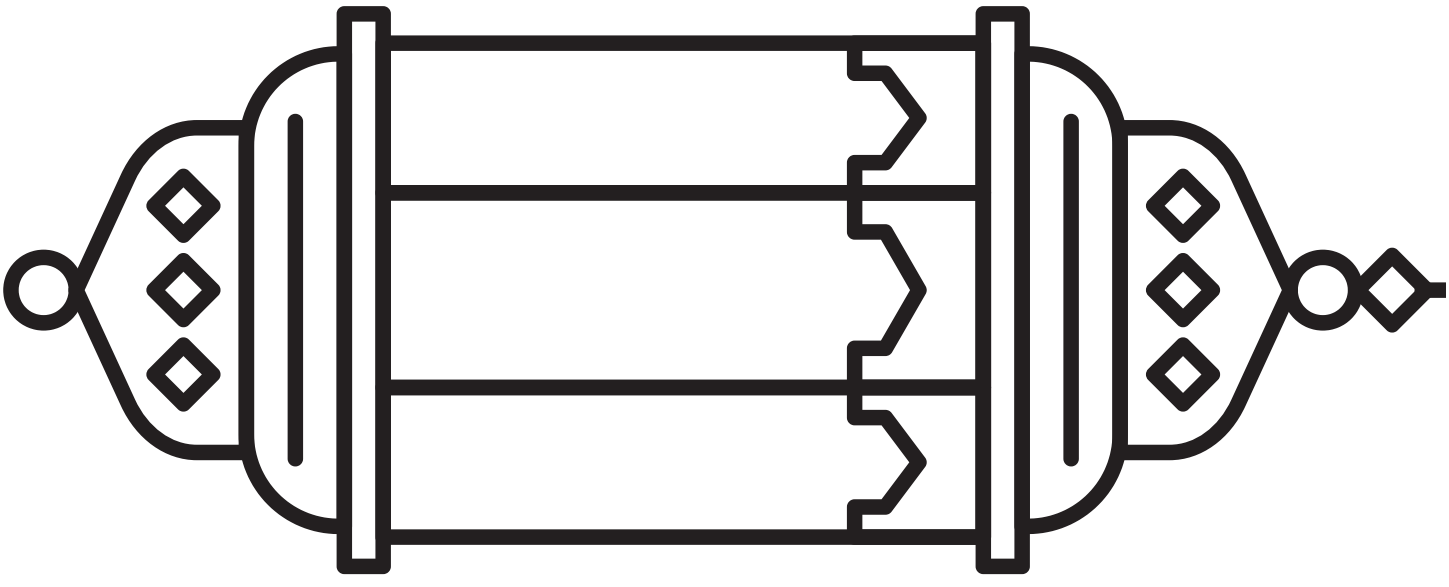
- Paper
- Pencils/textas
- Glue/sticky tape
- Beads
- Ribbon or string

What to do:

1. Print the lantern images, colour them in and cut out. You can draw your own designs as well. This activity works best on thicker paper because we will be creating a hanging decoration. If you don't have thicker paper, printer paper will be fine.
2. Cut a long piece of string. Thread some beads onto the string to make a tassel decoration on one end. Make sure you have a large knot at the end so the beads stay on. Glue or tape the lanterns onto the sting and make a loop at the top to hang them up.








Show us what you have made on the Kids Creations Gallery.
