

Rainbow Heart Art

What you need:

- Paper
- Pencils/textas (I used graphic markers for this because they have bright colours).
- You could also paint this on canvas.

What to do:

1. Draw a heart in the middle of the page. I wanted my art to have lots of rainbow pattern so I drew a few hearts inside each other. I used black marker so the colours would stand out.
2. Draw many lines coming out from the heart right up to the edge of the paper.
3. Colour these in. My favourite rainbow pattern is red, orange, yellow, light green, teal, light blue, dark blue, purple, magenta and pink.

Show us what you have made on the [Kids Creations Gallery](#).
