

Rainbow Unicorn

What you need:

- Paper
- Pencils/textas
- Scissors
- Glue/sticky tape
- Streamers

What to do:

1. Print out the templates on the next pages, or draw your own unicorn head. Colour this in.
2. Cut the strips out. You can stick these onto the back of the unicorn head.
3. If you have streamers, you can attach these to the back of the head as well. Your unicorn now has a rainbow mane! If you do not have streamers, just use more strips of paper that you have coloured in.
