# Wavy Rainbow Pattern

**What you need:**

- Paper
- A selection of textas or markers in bright colours, plus black.

**What to do:**

1. You can create a pattern like this by drawing many black wavy lines around each other. Then choose a selection of colours to colour the pattern in.

Another idea is to colour the paper in different colours and then draw a pattern over the top.

Show us what you have made on the Kids Creations Gallery.
