

Kids Club Online

Draw a Dinosaur Using Your Handprint.

What you need:

- Paper
- Drawing supplies.
- Your hand!

What to do:

1. Trace around your hand on paper.
2. Now make it into a dinosaur! Your fingers can be horns or spikes. You can add details and colour the dinosaur in. Or turn your hand print upside down so your fingers are legs. What kind of dinosaur will you create? Show us your dinosaur on the [Kids Club Online Gallery!](#)
